

West Dunbartonshire Council
PPP Schools

**West Dunbartonshire Council
PPP Schools**

West Dunbartonshire Council's PPP project has seen three of the Authority's six secondary schools and one of its primary schools being replaced by modern, well designed and fit for purpose Community Learning Centres which will additionally accommodate an Early Education and Childcare Centre, a Communications Base for pupils on the Autistic spectrum and extensive sporting and community facilities.

The schools are all of distinct and bespoke design with each school responding to its educational needs, site characteristics and particular stakeholder requirements. All of the schools will have extended opening during evenings and weekends to provide high quality facilities for community use. A BREAMM excellent rating was achieved.
