

South Lanarkshire Schools

## South Lanarkshire Council Schools - Phase 2

South Lanarkshire Council is among the biggest UK-wide education Public Private Partnerships (PPP) delivering a comprehensive Schools Modernisation Programme. Staff and around 10,000 pupils from the first and second phase of the primary schools programme are already reaping the benefits of working in contemporary, visually and mentally stimulating environments and are enjoying life in these modern, bright and inspiring buildings.

FES in house Specialist Divisions carried out the Mechanical, Electrical, Sprinklers, Prefabrication, Utilities, Data, Fire & Security installations. The successful handover of each school on time and defect free was a major achievement, only possible thanks to the close working relationship between all partners from the project team.
